[Impact of the COVID-19 pandemic on inflammatory bowel ...](https://onlinelibrary.wiley.com/doi/10.1002/smi.3080?af=R&cookieSet=1)
<https://onlinelibrary.wiley.com/doi/10.1002/smi.3080?af=R&cookieSet=1>

Jul 17, 2021 · Inflammatory bowel disease (IBD) is a chronic health condition exacerbated by negative emotional stress experiences. In the current study, we examined whether the outbreak of the COVID-19 pandemic coincided with an increase in stress experiences and accordingly an aggravation of disease activity in IBD patients.
