Primary intratracheal schwannoma misdiagnosed as severe asthma in an adolescent:

A case report

Huang HR *et al.* PIS misdiagnosed as asthma in an adolescent

Hui-Rong Huang, Pei-Qiang Li, Yi-Xin Wan

Abstract

BACKGROUND

Primary intratracheal schwannoma is an extremely rare type of benign airway tumor, especially in adolescents. The presenting symptoms are typically prolonged cough and wheezing that can be misdiagnosed as asthma in adolescent patients.
