Prenatal diagnosis of cor triatriatum sinister associated with early pericardial effusion: A case report

Cánovas E *et al.* Cor triatriatum sinister and early pericardial effusion

Esther Cánovas, Eduardo Cazorla, Melanie Cristine Alonzo, Rebeca Jara, Leyre Álvarez, Duska Beric

Abstract

BACKGROUND

Cor triatriatum sinistrum or **cor triatriatum sinister is a rare congenital heart** disease that accounts for approximately 0.1% of all cardiac abnormalities. It is defined as the presence of an anomalous septum that divides the left atrium into two cavities, and in
