Hello there,

My name is Zhiyan Fu, a fellow from Pathology Department at Albany Medical Center. Our resident Hua Li published a case report with our mentor Dr. Hwajeong Lee <<https://www.cureus.com/users/168634>>, who is the corresponding author of this report. Please see below. Right now, I am writing a review paper regarding hepatic Langerhans cell histiocytosis with Hua Li and Dr. Hwajeong Lee. We want to reuse some of the pathology figures in this report. What is your policy regarding this? Does Dr. Hwajeong Lee have the right to use the Figures again for other publication? What kind of citation should we include in our review paper if we want to reuse them? Thank you so much for your help!

Have a healthy and prosperous New year!

Sincerely,

Zhiyan Fu, MD

Breast/GI pathology fellow
