Current indications of endoscopic submucosal dissection ...

<https://pubmed.ncbi.nlm.nih.gov/31322655>

Endoscopic submucosal dissection for early gastric cancer seems to be technically mature. For expanding its indications, the outcomes of endoscopic submucosal dissection must not be inferior to those of surgery, as early gastric cancer is mostly treated by surgery. Therefore, the principles for the indications of endoscopic submucosal dissection are as follows: (1) **extremely low possibility of lymph node metastasis** ...
