#### **SPECIFIC COMMENTS TO AUTHORS**

This is a very interesting manuscript, showing important data to compare with other experiences world-wide. This pandemic not only has collapsed the health systems anywhere, but also other important points such as the perioperative morbidity and mortality in both asymptomatic or symptomatic COVID-19 must be considered and analyzed as priorities. Urgent or emergent surgeries should continue despite adversity, not only as a health problem but also with an important ethical component. Therefore, this reviewer considered that this kind of communications are welcome, and should be share with medical communities.

#### **ANSWER**

Thank you for your comments.
