A Guide to Pain Assessment and Management in the Neonate

<https://pubmed.ncbi.nlm.nih.gov/27073748>

Newborn infants experience acute **pain** with various medical procedures. Evidence demonstrates that controlling **pain** in the **newborn** period is beneficial, improving physiologic, behavioral, and hormonal outcomes. Multiple validated scoring **systems** exist to **assess pain** in a neonate; however, there is no **standardized** or universal approach for **pain management**.

A Guide to Pain Assessment and Management in the Neonate

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4819510>

Mar 12, 2016 · This **review** will explore the methods for **assessing pain**, the importance of establishing a universal approach for **assessing pain** as well as providing a tiered approach to **managing pain** in the **neonate**. Our goal is to improve **pain** scores (patient satisfaction), parental satisfaction, and provider satisfaction in all venues in which neonates are evaluated and treated.
