Dear Drozdstoj,

As you see, MDPI is an open access journal, "For all articles published in MDPI journals, copyright is retained by the authors. Articles are licensed under an open access Creative Commons CC BY 4.0 license, meaning that anyone may download and read the paper for free. In addition, the article may be reused and quoted provided that the original published version is cited".

We do not need to additionally provide you with a permission document. Maybe you need to explain it to the publisher of WJP.
