**Title: Impact of COVID-19 on Viral Hepatitis and its effect on Prevention & Elimination Strategies**

This manuscript has been proof-read by a native English speaker.

This article was read and studied carefully by a fellow colleague at the Aga Khan University. This colleague is a U.S. born and is native to the English language. The colleague has ensured that there are no grammatical errors in this manuscript.

I am available for all further correspondence and queries.

Thank you.
