

PEER-REVIEW REPORT

Name of journal: World Journal of Gastrointestinal Oncology

Manuscript NO: 64702

Title: Evidence based tools to improve efficiency of currently administered oncotherapies for tumors of the hepatopancreatobiliary system

Reviewer’s code: 02569794

Position: Editorial Board

Academic degree: MD, PhD

Professional title: Associate Professor

Reviewer’s Country/Territory: Thailand

Author’s Country/Territory: Hungary

Manuscript submission date: 2021-02-22

Reviewer chosen by: AI Technique

Reviewer accepted review: 2021-02-23 07:45

Reviewer performed review: 2021-03-05 08:33

Review time: 10 Days

SPECIFIC COMMENTS TO AUTHORS

The authors have summarized information about using adjuvant hyperthermia in hepatopancreatobiliary cancers. The manuscript is well written with clear language communication. The figures and table are appropriately presented. The reviewer's question is whether the staging, for each type of cancer such as tumor sizes and metastatic status, of the cancers mentioned would be associated with the outcomes of the treatment. Is this already included in the summarized information in the figures and table.
