

Biostatistics Review Certificate for the World Journal of Stem Cells

I, Dr Jan Jeroen Vranckx, the corresponding author of the paper number 64768 titled "The anti-fibrotic effect of adipose-derived stem cells (ADSCs) on fibrotic scars after radiotherapy", certify that Steffen Fieuws, PhD, head of division of statistical analysis in UZ-Leuven supervised the study protocol and the statistical analysis of this systematic review. Co-author Sophie Vanderstichele obtained her credits for Statistics from KUL Leuven University.

A handwritten signature in blue ink, appearing to read "Jan Jeroen Vranckx".

Jan Jeroen Vranckx, MD, PhD, FCCP, FAAPS
