<https://www.cambridge.org/core/services/aop-cambridge-core/content/view...>

adiponectin, adipokines that are present in breast milk, have been shown to play a role in the regulation of immune responses. We report here, for the first time, the influence of in vivo adipokine supplementation on the intestinal immune system in early life. Suckling Wistar rats were daily

Role of leptin and adiponectin in insulin resistance ...

<https://www.sciencedirect.com/science/article/pii/S0009898112005773>

Feb 18, 2013 · Adiponectin is a novel adipose-specific collagen-like plasma protein that is exclusively expressed in human adipose tissue, but its expression decreases with the increase in the adiposity. Leptin is strongly related in its structure to proinflammatory cytokines and it plays a major role in body weight regulation.

Adiponectin in relation to malignancies: a review of ...

<https://academic.oup.com/ajcn/article/86/3/858S/4649258> ▾

Sep 01, 2007 · Adiponectin may also play a role in gastric and renal cancer and in leukemia (73, 81). Plasma adiponectin concentrations have been found to be lower in patients with gastric cancer than in healthy control subjects and to be inversely correlated with tumor size, depth of invasion, and tumor stage. In a small, case-control, retrospective study ...

Adiponectin and Reproduction - ScienceDirect

<https://www.sciencedirect.com/science/article/pii/B9780123983138000087>

Jan 01, 2012 · Adiponectin is another adipokine that is known for its important role in the regulation of energy homeostasis. More precisely, adiponectin is described as a molecule that has antidiabetic, antiatherogenic, anti-inflammatory, and angiogenic properties. Recently, it has been proposed to be involved in the control of reproductive functions.

Jan 10, 2005 · Adiponectin is a novel adipocyte-specific protein, which, it has been suggested, plays a role in the development of insulin resistance and atherosclerosis. Although it circulates in high concentrations, adiponectin levels are lower in obese subjects than in lean subjects. Apart from negative correlations with measures of adiposity, adiponectin levels are also reduced in association with ...
