

July 19, 2021

Dear Reviewers,

We are pleased to submit our revised review titled “Screening Strategy for Gastrointestinal and Hepatopancreatobiliary Cancers in Cystic Fibrosis.”

There were no issues raised in the peer review report. The Science editor noted that some of the PMID and DOI numbers were missing from the reference list, which have been corrected in the revised version. The remaining references without PMID or DOI numbers listed do not own these numbers. Thank you for your consideration of this manuscript.

Sincerely,

Wikrom Karnsakul, M.D.
