Eating disorders - Symptoms and causes - Mayo Clinic

<https://www.mayoclinic.org/diseases-conditions/eating-disorders>

OverviewSymptomsCausesRisk FactorsComplications

Eating disorders are serious conditions related to persistent eating behaviors that negatively impact your health, your emotions and your ability to function in important areas of life. The most common eating disorders are anorexia nervosa, bulimia nervosa and binge-eating disorder. Most eating disorders involve focusing too much on your weight, body shape and food, leading to dangerous eating behaviors. These behaviors can significantly impact your body's ability to get appropriate nutrition. Eating disorders can h...
