[CAR T Cells: Engineering Immune Cells to Treat Cancer ...](#)

<https://www.cancer.gov/about-cancer/treatment/research/car-t-cells>

Jul 30, 2019 - Tisagenlecleucel is a new option for some patients with common lymphoma. In 2017, two CAR T-cell therapies were approved by the Food and Drug Administration (FDA), one for the treatment of children with acute lymphoblastic leukemia (ALL) and the other for adults with advanced lymphomas.

Parenteral nutrition (PN) provides life-saving nutritional support in situations where caloric supply via the enteral route cannot cover the necessary needs of the organism. However, it does have serious adverse effects, including parenteral nutrition-associated liver disease (PNALD). The development of liver injury associated with PN is multifactorial, including non-specific intestine ...
