**Current role of hepatopancreatoduodenectomy for the management of gallbladder cancer and extrahepatic cholangiocarcinoma: A systematic review**

Fancellu A *et al.* HPD for management of biliary cancer

Alessandro Fancellu, Valeria Sanna, Giulia Deiana, Chiara Ninniri, Davide Turilli, Teresa Perra, Alberto Porcu

**7** **Abstract**

**BACKGROUND**

Hepatopancreatoduodenectomy (HPD) is the simultaneous combination of hepatic resection, pancreaticoduodenectomy, and resection of the entire extrahepatic biliary system. HPD is not a universally accepted due to high mortality and morbidity rates, as

<https://onlinelibrary.wiley.com/doi/full/10.1007/s00534-006-1108-2>

Mar 27, 2007 · Introduction. In 1980, a combined liver and pancreatic head resection (hepatopancreatoduodenectomy; HPD) was introduced as a challenging operation to treat advanced gallbladder cancer. 1 Subsequently, many Japanese hepatobiliary surgeons carried out this drastic surgery for biliary malignancies and obtained a small number of long-term survivors, despite its high ...
