

15 March 2021

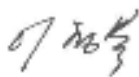

Certificate of Biostatistics

To whom it may concern;

It is to certify that the statistical analysis of the article entitled '**Short-term and long-term outcomes of laparoscopic versus open ileocolic resection in patients with Crohn's disease: Propensity-score matching analysis**' was conducted under my supervision and that their analysis methods and interpretation of the result were verified at Biostatistics Department, Asan Medical Center.

Best Regards

Jung Bok Lee, PhD

Associate Prof

Department of Clinical Epidemiology and Biostatistics

Asan Medical Center

Univ of Ulsan College of Medicine
