RE: Non-native speakers of English Editing Certificate

I declare that the authors of the present manuscript “Gut Bless You: Microbiota-gut-brain axis in Irritable bowel syndrome” are non-native English speakers but our manuscript has been reviewed by a colleague whose native language is English.

A handwritten signature in black ink, appearing to read 'Birgitte Berentsen', written in a cursive style.

Ass. Prof. Birgitte Berentsen PhD (for all authors)
