25<sup>th</sup> March 2021

To whom it may concern,

With this letter, I can confirm that the text entitled 'Stent visualization methods to guide percutaneous coronary interventions and assess long-term patency' by Chadi GHAFARI has been proofread and corrected by Natalie Dickson, Proofreader of the Proofreading and Translation Department of the Centre for Modern Languages, University of Mons.

The proofreading was completed on 25<sup>th</sup> March 2021 and you should find that the text contains no errors in English, providing no changes have been made to the text by the author since the proofreading was finalised.

Yours faithfully,

Viviane Grisez

Director
