

The statistical analysis of this meta-analysis was supervised by Dr Yan Wang (email: wangyanxw@126.com) who is from the Department of Thoracic Surgery, West China Hospital. Dr Yan Wang has published more than ten meta-analysis papers and he ensured that our statistical methods were correct.

The papers that Dr Yan Wang has published:

1. Wang Y, Li Y, Chen P, et al. Prognostic value of the pretreatment systemic immune-inflammation index (SII) in patients with non-small cell lung cancer: a meta-analysis. *Ann Transl Med.* 2019;7(18):433.
2. Wang Y, Wu Y, Li J, et al. Prognostic and clinicopathological significance of FGFR1 gene amplification in resected esophageal squamous cell carcinoma: a meta-analysis. *Ann Transl Med.* 2019;7(22):669.
3. Wang Y, Li J, Chang S, Zhou K, Che G. Low Albumin to Fibrinogen Ratio Predicts Poor Overall Survival in Esophageal Small Cell Carcinoma Patients: A Retrospective Study. *Cancer Manag Res.* 2020;12:2675-2683.
