

Certificate of biostatistics

31 March 2021

To whom it may concern

Title of the study: Simultaneous ipsilateral nephrectomy during kidney transplantation for autosomal dominant polycystic kidney disease does not detrimentally impact comorbidity and graft survival after transplantation.

Chief investigator: Tom Darius, General and Abdominal Transplantation Unit,  
University Clinics Saint Luc Brussels, Belgium

This letter is to confirm that I have read the ethics application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Please contact me if you have any queries.

Sincerely,

Bastiaan Jansen

Biostatistician
