Invasive Breast Carcinoma Arising in Microglandular ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3893346>

Dec 31, 2013 · Microglandular adenosis (MGA) is a rare benign disease that shows an infiltrative growth pattern of small glands, and it may progress to include atypia and carcinoma. Here we report two cases of breast carcinoma arising in MGA. Case 1 was a 44-year-old woman with a previous history of ductal carcinoma in situ in her right breast. During a follow-up, a 1.8 cm mass-like lesion was found in ...

Pathology Outlines - Microglandular adenosis

<https://www.pathologyoutlines.com/topic/breastmicroglandularadenosis.html>

Feb 11, 2021 · Sample pathology report. Right breast, core biopsy; Microglandular adenosis (MGA) (see comment) Comment: Immunohistochemistry shows the lesion to be S100 positive (diffusely, strongly), estrogen receptor negative and to lack myoepithelium via p63 and calponin, supporting the diagnosis. Controls are appropriate.

Adenoid cystic carcinoma

Rare Type

Symptoms Diagnosis >

Adenoid cystic carcinoma is a rare type of cancer that can exist in many different body sites. This tumor most often occurs in the salivary glands, but it can also be found in many anatomic sites, including the breast, lacrimal gland, lung, brain, Bartholin gland, trachea, and the paranasal sinuses.

### Invasive Breast Carcinoma Arising in Microglandular ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3893346>

Dec 31, 2013 · **Microglandular adenosis** (MGA) is a rare benign disease that shows an infiltrative growth **pattern** of small glands, and it may progress to include atypia and **carcinoma**. Here we **report** two cases of **breast carcinoma arising in MGA**. **Case 1** was a 44-year-old woman with a previous history of ductal **carcinoma in situ** in her right **breast**. During a ...

### Invasive Carcinoma Arising in Microglandular Adenosis of ...

<https://sites.kowsarpub.com/iranradiol/articles/63463.html>

Oct 31, 2017 · **Breast carcinoma arising in microglandular adenosis** has been reported. Because of its extreme rarity, its clinical and radiological features are not well known. We present a **case of invasive carcinoma arising in microglandular adenosis of the breast** in a 63-year-old woman with radiologic and pathologic findings.

### Salivary gland-type mammary carcinoma arising in ...

<https://www.sciencedirect.com/science/article/pii/S2468294220300150>

Jan 01, 2020 · **Microglandular adenosis** (MGA) is a rare benign proliferative lesion lacking a myoepithelial cell layer; 27% of all **reported cases** have progressed to invasive **carcinoma**. **Salivary gland-type carcinomas** of the **breast** are also uncommon, representing 2% of all breast cancers. This wide spectrum of neoplasms tends to be triple negative and generally has an excellent prognosis.

### Invasive Breast Carcinoma Arising in Microglandular ...

<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3893346>

Dec 31, 2013 · Microglandular adenosis (MGA) is a rare benign disease that shows an infiltrative growth pattern of small glands, and it may progress to include atypia and carcinoma. Here we report two cases of breast carcinoma arising in MGA. Case 1 was a 44-year-old woman with a previous history of ductal carcinoma in situ in her right breast. During a ...

### Carcinoma arising in microglandular adenosis of the breast ...

[europepmc.org/articles/PMC4203234](http://europepmc.org/articles/PMC4203234)

Dec 01, 2013 · Carcinoma arising in microglandular adenosis (MGACA) is an extremely rare subtype of breast carcinoma. In this study, clinicopathological analysis of MGACA from 11 Chinese patients was conducted. Microscopically, all cases showed a spectrum of structure and glandular proliferations ranging from microglandular adenosis (MGA) to atypical MGA (AMGA) to MGACA.

### Invasive Carcinoma Arising in Microglandular Adenosis of ...

<https://sites.kowsarpub.com/iranjradiol/articles/63463.html>

Oct 31, 2017 · Breast carcinoma arising in microglandular adenosis has been reported. Because of its extreme rarity, its clinical and radiological features are not well known. We present a case of invasive carcinoma arising in microglandular adenosis of the breast in a 63-year-old woman with radiologic and pathologic findings.
