CATTEDRA DI PSICHIATRIA

Teramo, September 13, 2021

Dear Editor-in-Chief,

please find enclosed the revised manuscript entitled "*The legacy of neuropsychiatric symptoms associated with past Covid-19 infection: a cause of concern*".

We state that:

- 1) the revised manuscript is not under consideration for publication elsewhere;
- 2) all authors have read and approved the revised manuscript;
- 3) each author believes that the revised manuscript represents honest work;
- 4) all authors have contributed to the present revised manuscript with equal efforts.

Besides, we underline that any research grants did not fund this review, and no pharmaceutical companies were informed of or involved. The authors have no potential conflicts of interest that are relevant to the contents of the paper. We would thank the Reviewers for their precious comments that allowed us to better clarify and improve our paper. In particular we have checked and revised the English language and added a Figure as suggested.

The designed corresponding author is Domenico De Berardis, MD, Ph.D. NHS, Department of Mental Health, Psychiatric Service of Diagnosis and Treatment, "G. Mazzini" Hospital, Piazza Italia 1, 64100 Teramo (Italy). Tel.: +39 0861429708; fax: +390861429706. E-mail address: domenico.deberardis@aslteramo.it

Thank You for considering our review and please, feel free to contact us, as we are available for further information immediately.

Sincerely, Domenico De Berardis.
