### Retrospective Study

**1** Elevated liver enzymes portends a higher rate of complication and death in SARS-CoV-2

Currier EE *et al.* Liver enzymes linked to COVID-19 complications

Emily E Currier, Mohamad Dabaja, Syed-Mohammed Jafri

### Abstract

#### **1** BACKGROUND

Severe acute respiratory syndrome coronavirus 2, or coronavirus disease-2019 (COVID-19), has infected millions worldwide since its discovery in Wuhan, China in December 2019, but little is still known about the disease process. Preliminary research in China
