Hepatocellular Carcinoma

Medical Condition

A common type of cancer affecting liver

The most common form of liver cancer often seen in people with chronic liver diseases like cirrhosis.
Rare (Fewer than 200,000 cases per year in US)

Metabolic characterization of hepatocellular carcinoma...<https://pubmed.ncbi.nlm.nih.gov/23824744>

Hepatocellular carcinoma has a poor prognosis due to its rapid development and early metastasis. In this report, we characterized the metabolic features of hepatocellular carcinoma using a nontargeted metabolic profiling strategy based on liquid chromatography-mass spectrometry. Fifty pairs of liver ...

Metabolic Characterization of Hepatocellular Carcinoma ...<https://cancerres.aacrjournals.org/content/73/16/4992>

Aug 15, 2013 Hepatocellular carcinoma has a poor prognosis due to its rapid development and early metastasis. In this report, we characterized the metabolic features of hepatocellular carcinoma using a nontargeted metabolic profiling strategy based on liquid chromatography mass spectrometry. Fifty pairs of liver cancer samples and matched normal tissues were collected from patients having hepatocellular
