

## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Gastrointestinal Oncology*

**Manuscript NO:** 68418

**Title:** Barrett's esophagus: review of natural history and comparative efficacy of endoscopic and surgical therapies

**Provenance and peer review:** Invited Manuscript; Externally peer reviewed

**Peer-review model:** Single blind

**Reviewer's code:** 05902104

**Position:** Peer Reviewer

**Academic degree:** MD

**Professional title:** Professor

**Reviewer's Country/Territory:** Turkey

**Author's Country/Territory:** Australia

**Manuscript submission date:** 2021-05-22

**Reviewer chosen by:** Ze-Mao Gong

**Reviewer accepted review:** 2021-09-02 11:24

**Reviewer performed review:** 2021-09-10 09:40

**Review time:** 7 Days and 22 Hours

Scientific quality	<input checked="" type="radio"/> Grade A: Excellent <input type="radio"/> Grade B: Very good <input type="radio"/> Grade C: Good <input type="radio"/> Grade D: Fair <input type="radio"/> Grade E: Do not publish
Language quality	<input checked="" type="radio"/> Grade A: Priority publishing <input type="radio"/> Grade B: Minor language polishing <input type="radio"/> Grade C: A great deal of language polishing <input type="radio"/> Grade D: Rejection
Conclusion	<input checked="" type="radio"/> Accept (High priority) <input type="radio"/> Accept (General priority) <input type="radio"/> Minor revision <input type="radio"/> Major revision <input type="radio"/> Rejection
Re-review	<input type="radio"/> Yes <input checked="" type="radio"/> No

#### **SPECIFIC COMMENTS TO AUTHORS**

This work proposes an extensive review of natural history and the risk of cancer progression for Barrett's esophagus, and it also focuses on the efficacy of endoscopic and surgical therapies for Barrett's esophagus. However, these are very well-established techniques; some novelties on them may assist the physician in the therapeutic decision-making process. In future work, interventions to address the role of the different histological stages of Barrett's esophagus are required. Thus the paper is worthy of publication.
