Title:Remimazolam benzenesulfonate anesthesia effectiveness in cardiac surgery patients under general anesthesia

Author:Fang Tang¹, Jianmin Yi², Hongyan Gong³, Ziyun Lu⁴, Jie Chen⁵, Bei Fang⁶, Chen Chen⁷, Zhiyi Liu⁸

Name of Journal: World Journal of Clinical Cases

Manuscript NO:69699

First of all, thank you for your careful guidance of this article. Revision has been made according to the suggestions of the reviewer:

Reviewer: 06129046

This study was designed to investigate the clinical value of remimazolam benzenesulfonate in cardiac surgery patients under general anesthesia. Total 80 patients who underwent surgery were included. The design of the study is good. The anesthesia methods are described in detail. The results are interesting and well discussed. Minor Comments: 1. The manuscript requires an editing. There is some minor language polishing, which should be corrected. 2. Please take attention about the abbreviations. 3. The references should be edited.

Thank you for your advice.

After receiving the comments, 1. The manuscript was edited and the language was refinished. 2. Modified the question about abbreviations. 3. Some edits have been made to the references.

Thank you again for publishing our manuscript in theWorld Journal of Clinical Cases.

Sincerely Yours,

Zhiyi Liu
