Associate Professor

University of São Paulo

PEER-REVIEW REPORT

Name of journal: World Journal of Gastroenterology

Manuscript NO: 69749

Title: Enteric nervous system and inflammatory bowel diseases: Correlated impacts and therapeutic approaches through the X7 receptor

Reviewer's code: 05121403

Position: Peer Reviewer

Academic degree: PhD

Professional title: Professor

Reviewer's Country/Territory: China

Author's Country/Territory: Brazil

Manuscript submission date: 2021-07-10

Reviewer chosen by: AI Technique

Reviewer accepted review: 2021-07-25 22:41

Reviewer performed review: 2021-07-30 12:29

Review time: 4 Days and 13 Hours

SPECIFIC COMMENTS TO AUTHORS

Despite the great advancement have been made in the field of IBDs, the therapeutic approaches are still limited. The P2X7 receptor has become a promising therapeutic target for IBDs. This review summarizes the impacts caused by IBDs on enteric nervous system cells and brings together the findings of the most recent literature on therapeutic approaches through the P2X7 receptor
