Editorial Office

Dear Dr. Wang,:

The comments of the reviewer have been helpful in the revision of our manuscript. We have attempted to address the questions raised by the referee by making the following changes:

Reviewer #1

1. We re-made the Supplementary Figure with enhanced resolution.
2. The Japanese text was the assignment number of the language editing company. We requested the actual title of this paper to be inserted instead. Here, we submit the revised certificate of editing.

The detailed review of this manuscript is appreciated, and we have attempted to answer each of the questions raised.

We revised our manuscript according to the Peer-Review Report, the Editorial Office's comments and the Criteria for Manuscript Revision by Authors. We prepared and arranged our figures using PowerPoint to ensure that all graphs, arrows, and text can be reprocessed by the editor. We submit the required accompanying documents, including the new language certificate.

Sincerely,
