Dated: July 22, 2021

Institutional Review Board Approval Document

This is to certify that study entitled “Baicalin provides protection against fluoxetine induced hepatotoxicity by modulation of oxidative stress and inflammation” does not involve human subjects. The study was performed using rat model. For use of animals, ethical clearance was given by Institutional Animal Ethics Committee, University of Allahabad wide approval no. IAEC/AU/2017(1)/003 dated 30/08/2017. Same document has been uploaded separately under Institutional Animal Care and Use Committee Approval Form or Document.

A handwritten signature in blue ink, which appears to read "Abhay K. Pandey".

(Abhay K. Pandey, PhD)
Professor of Biochemistry
