dear authors First i would like to congratulate for your achievement. It was a well informed case report. Eventhough the diagnostic was unclear, but i think your finding regarding eosinophilia related to VTE is very useful..

#### **SPECIFIC COMMENTS TO AUTHORS**

The case report a patient presenting with deep vein thrombosis and cerebral venous thrombosis with Eosinophilia being possible cause. Manuscript can be shortened especially the section of case report should be written in crisp fashion. The link between eosinophilia and venous thrombosis should be explained in detail.
