

Dear editor

Hello, I'll read the reviewer's comments carefully.

Reviewer 1: A well documented "managed" cases of KA of the lip. The paper is well written and the review is comprehensive. The figures are of good quality.

Reviewer 2: The manuscript is written well. It seems to be suitable for publication.

According to the comments of the reviewer, I apply not to modify the manuscript for the time being.

Sincerely

Xuxia Wang
