

Reviewer #1:

1 、 In the abstract, the authors identified 45 pediatric cases and provided the baseline information. Please add the mean age of 45 cases with standard deviation value.

Response: The mean age of 45 cases with standard deviation value is  $10.98 \pm 4.86$ .

2、 In the Case presentation, please provide a full term of 'ENT.'

Response: The term of 'ENT' means Ear Nose and Throat.

3、 In the Discussion section, please provide an appropriate reference in the second half of the first paragraph?

Response: An appropriate referenc : Dwight AL, Ramanath Rao, John Smeyer . Hormonal receptor determination in juvenile nasopharyngeal angiofibromas . Cancer, 1980;46(3): 547-551 . [DOI:10.1002/1097-0142(19800801)46:3<547::aid-cnrcr2820460321>3.0.co;2-s]

Reviewer #2:

The English of the manuscript needs revision. There are numerous grammatical and syntax errors in the manuscript.

Response: This manuscript has been edited and proofread by *Medjaden* Bioscience Limited.
