Thank you very much for giving me a chance to review the manuscript entitled "Surgery in platinum-resistant recurrent epithelial ovarian carcinoma". The result of this study concluded that the secondary cytoreductive surgery is feasible for the treatment of platinum-resistant recurrent EOC. I think the results of this study might help caring the platinum-resistant recurrent EOC patients and will create more references regarding the treatment in these patients. This manuscript is valuable enough to published in these journal.

#### **SPECIFIC COMMENTS TO AUTHORS**

The article is written very well and covers an important topic of effect of surgery on platinum resistant epithelial ovarian cancers. Very little data is available in this situation and the results from this retrospective research definitely adds to the knowledge. Article is written very well and has nice flow with almost no grammatical errors.
