

Roma 29/09/2021

Dear Editor,

Funding. This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Provenance and peer review. Not commissioned, externally peer reviewed.

Data statement. The authors confirm that the data supporting the findings of this study are available within the article.

All authors given full approval of the version to be published.

Declarations. All procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional and national) and with the Helsinki Declaration of 1964 and later versions.

Research involving human participants and/or animals. This article does not contain any experimental studies with human participants or animal performed by any of the authors.

Informed consent. Each patient signed an informed consent for any surgery and other procedures. The study is a retrospective analysis of deidentified data.

Competing interests. The authors declare no competing interests.

Submission of the manuscript means that the paper is original and has not yet been totally or partially published and, if accepted, will not be published elsewhere either wholly or in part. The Authors agree to transfer the ownership of copyright to the journal in the event the manuscript is published.

Thank You very much for your interest, we look forward to your reply.

Sincerely,

Giuseppe Brisinda
