Certificate of English Editing

This is to certify that I have reviewed and edited the manuscript "Clearance of the liver remnant predicts short-term outcomes in patients undergoing resection of hepatocellular carcinoma", which is World Journal of Gastroenterology #72783, Miki et al authors. I am a native speaker of English and well-published surgical scientist.

This paper absolutely conforms to standard scientific English usage. It is possible that there may be a typographic error, but the grammar and usage is standard English in all regards.

Sincerely,

A handwritten signature in black ink, appearing to be 'A. Kawai'.
