ESPS Manuscript NO: 7320

Dear Su-Xin Gou, Science Editor, Editorial Office of the World Journal of Gastroenterology,

herewith I guarantee, that the manuscript **No 7320** with the title: **“Smoking increases the risk of Extraintestinal Manifestations in Crohn’s Disease but not in Ulcerative Colitis – results from a population based cohort at first diagnosis and during the early course of disease”** has been revised by a native speaker of English.

Yours sincerely,

Claudia Ott, MD
