

ANSWERING REVIEWERS

January 31, 2013

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 735-edit.doc).

Title: Curcumin Attenuated Paracetamol Overdose induced Hepatitis

Author: Kanjana Somanawat, Duangporn Thong-Ngam, Naruemon Klaikeaw

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 735

The manuscript has been improved according to the suggestions of reviewers:

1. All formats have been updated.
2. Revision has been made according to the suggestions of the reviewer
 1. This study designed to investigate the 24-hour results that curcumin could attenuate hepatitis in mice with paracetamol overdose. There is no long term survival data.
 2. That paragraph was eliminated follow the suggestion.
 3. For the clinically used, need the further study.
 4. We add the reference to show the effects of curcumin inhibit Kupffer cells and caspase-1 pathway, not direct from our data.
3. References and typesetting were corrected.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

A handwritten signature in purple ink that reads 'Duangporn Thong-Ngam'. Below the signature is a horizontal line.
