SPECIFIC COMMENTS TO AUTHORS

Manuscript Number: 73707 Title: Ideal scoring system for acute pancreatitis: Quest for the Holy Grail In this study, the authors reviewed the Sequential Organ Failure Assessment (SOFA) to further confirm the role of SOFA score in the clinical Assessment of acute pancreatitis. Therefore, the author should further introduce whether SOFA can also be used in other diseases to highlight the extensive role of SOFA in clinical practice. Overall, I think this is a worthy study that has important implications. The manuscript can be accepted and published in World Journal of Critical Care Medicine after minor revision.

SPECIFIC COMMENTS TO AUTHORS

In this paper, the letter proposed the widely concerned scoring problems in the clinical process of acute pancreatitis and explained the different scoring problems. At the same time, the author cites the articles published in the past to explain, but there is still a lack of certain innovation.
