

INFORMED CONSENT STATEMENT

Name of Journal: World Journal of Psychaitry

Manuscript NO: 74300

Manuscript Type: ORIGINAL ARTICLE

Observational Study

The clinical characteristics of pediatric patients with treatment-refractory Tourette syndrome: An evidence-based survey in a Chinese sample

Ying Li, Jun-Juan Yan, Yong-Hua Cui

Informed constant statement: Patients were not required to give informed consent to the study because the analysis used anonymous data that were obtained after each patient agreed to treatment by written consent.

Sincerely,

Yong-Hua Cui
