

May 7, 2014

Dear Editors,

Please find enclosed the edited manuscript in a Word format file: 7470 Review.docx

**Title:** Resolution of acute gastroenteritis symptoms in children and adults treated with a novel polyphenol-based prebiotic. A randomized controlled clinical study.

**Authors:** Telma Noguera, Robert Wotring, Chris R Melville, Kara Hargraves, Jochen Kumm, John M Morton

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 7470

The manuscript has been improved according to reviewer's comments.

- 1) Added a running title
- 2) Added author contributions
- 3) Did not know where or how to add the label "Randomized Controlled Trial"
- 4) Updated form of "Correspondence to:" section including telephone information
- 5) Re-wrote the Abstract to fit your guidance. Added confidence intervals to the data.
- 6) Added list of Keywords
- 7) Added the requested Core Tip section
- 8) Made minor formatting edits to body of the text
- 9) Corrected a number to match the reference it came from in the Introduction section
- 10) Wrote the COMMENTS section, as requested
- 11) Added confidence intervals to conform with 'Writing Requirements of Original Articles'.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*. We are thrilled to have your journal present our results to the medical science community.

Sincerely,

Robert Wotring
