To whom it may concern,

As holder of the British Institute Certificate in French and English Translation (BICFET), medical doctor and Research Director, I reviewed and edited the English language of the paper entitled “Delayed-release oral mesalamine tablet mimicking a small jejunal gastrointestinal stromal tumor: A case report” which is under consideration for publication in the *World Journal of Clinical Cases* by F. Frosio et al, and consider that it has achieved Grade A: priority publishing; no language polishing required after editing.

Should you require any additional information, please do not hesitate to contact me.

Dr Marie-Christine BOUTRON-RUAULT
