To whom it may concern

I have carefully read this paper "Delayed improvements in visual memory task performance and negative symptoms among chronic schizophrenia patients after high-frequency repetitive transcranial magnetic stimulation" which will be published in the world Journal of psychiatry.

This letter is to confirm that I have read the ethics application prepared for this study, and that in my opinion the statistical methods and techniques mentioned are appropriate for the research.

Best Wishes

A handwritten signature in black ink, reading "Xiangrong Zhang". The signature is fluid and cursive, with the first name "Xiangrong" and the last name "Zhang" clearly distinguishable.
