

## LANGUAGE CERTIFICATE

This document acknowledges that letter to editor paper entitled '**Is every micro-organism detected in the intensive care unit a nosocomial infection? Isn't prevention more important than detection?**' has been edited to ensure that the language is clear and free of errors. The edit was performed by a native English speaker. The quality of the edit has been guaranteed, with the assumption that native speaker's suggested changes have been accepted and have not been further altered.

Sincerely,

Fatma YILDIRIM, MD
