

PRISMA 2009 Checklist

Section/topic	#	Checklist item	Reported on page #
TITLE			
Title	1	This report is identified EVIDENCE-BASED MEDICINE.	1
ABSTRACT			
Structured summary	2	The report includes background; objectives; methods; results; discussion and conclusions.	3
INTRODUCTION			
Rationale	3	Described in the introduction.	4
Objectives	4	Stated in the introduction.	4
METHODS			
Protocol and registration	5	The protocol is described in the Methods. Registration does not apply.	5
Eligibility criteria	6	The criteria is described in the Methods.	5
Information sources	7	Information sources is described in the Methods.	5
Search	8	The search strategy is described in the Methods.	5
Study selection	9	Study selection is described in the Methods.	5
Data collection process	10	Data collection process is described in the Methods.	5
Data items	11	Data items is described in the Methods.	5
Risk of bias in individual studies	12	Risk of bias in individual studies Data items does not apply.	-
Summary measures	13	Summary measures is described in the Methods.	5
Synthesis of results	14	Synthesis of results does not apply.	-

PRISMA 2009 Checklist

Page 1 of 2

Section/topic	#	Checklist item	Reported on page #
Risk of bias across studies	15	Risk of bias across studies does not apply.	-
Additional analyses	16	Quantile method and RF was used.	7
RESULTS			
Study selection	17	selection is described in the Methods.	7
Study characteristics	18	Study characteristics is described in the Methods.	7
Risk of bias within studies	19	Risk of bias within studies does not apply.	-
Results of individual studies	20	Results of individual studies does not apply.	-
Synthesis of results	21	Results of each analysis is showed in Result.	7
Risk of bias across studies	22	Risk of bias across studies does not apply.	-
Additional analysis	23	Quantile method and RF are showed in Result.	7
DISCUSSION			
Summary of evidence	24	Summary of evidence are showed in result and discussion.	9
Limitations	25	Limitations has been discussed.	10
Conclusions	26	We constructed a PRS model based on the <i>H. pylori</i> genome to predict the risk of gastric cancer.	11
FUNDING			
Funding	27	Supported by the National Natural Science Foundation of China, No. 31870777.	2
