March 19, 2021

To whom it may concern,

This letter is to confirm that I, who is an Assistant Professor of Biostatistics at Arizona State University, and Stacy Williams, who is a master's level statistician in my Lab, performed the statistical data analyses for the article entitled "Serological profiling of Crohn's disease and Ulcerative colitis patients reveals anti-microbial antibody signatures", and statistical methods and techniques used in the article were appropriate in my opinion.

Sincerely,

A handwritten signature in black ink that reads 'yunro' in a cursive, lowercase style.

Yunro Chung, Ph.D.
