SPECIFIC COMMENTS TO AUTHORS

It was a pleasure going through the manuscript. It looks great still I have few suggestions. When was her last follow up and what was her condition? Had you had a follow up after apatinib? In conclusion section author has described the case. I think it is better to provide your opinion in such case management standing on the base of this case. Please recheck reference 1 for name of authors hitting the DOI number or surf the original journal site you can get it. Felix Frankel There are few typological errors throughout the manuscript. Please check and correct.
