Dear Professor Valdastri

Cancer Research UK Grant Award Letter

Application Reference: C64904/A27744

Funding Scheme: Early Detection Committee - Project Award

Application Title: A robotic magnetic flexible endoscope for painless colorectal cancer diagnostic screening, surveillance and intervention

I am pleased to enclose your new Grant Award Letter.

Cancer Research UK relies on and much appreciates all the support our scientists give to help with fundraising and time they give to speak on behalf of Cancer Research UK at various fundraising and PR events. Please let me know if you would like to get involved with this aspect of the Charity's work. Our sincere thanks if you are already an active contributor.

I wish you every success with your research and look forward to hearing about progress in the future.

Yours sincerely

Elizabeth Smethurst
Research Funding Manager

Dear Professor Valdastri

Cancer Research UK Grant Award Letter

Application Reference: C64904/A27744
Funding Scheme: Early Detection Committee - Project Award
Application Title: A robotic magnetic flexible endoscope for painless colorectal cancer diagnostic screening, surveillance and intervention

I am pleased to inform you that your application for support has been considered by Cancer Research UK's Early Detection Committee and a grant has been awarded as detailed within this letter. This document will be made available to your Administrative Authority upon your acceptance of the award.

Cancer Research UK's Terms and Conditions and Administration Information for Research Grants and Awards can be found at:

<http://science.cancerresearchuk.org/funding/terms-conditions/grant-conditions/>

Please download and read this document as it contains important information about the administration of your award. Both you and your host institution will be required to agree to these terms and conditions in order to accept the award.

Following acceptance of this grant you will be required to activate your award within three months of the expected start date, unless you have agreed delayed activation with Cancer Research UK. Once an activation date has been agreed this cannot be changed.

I would like to take this opportunity to highlight the reporting requirements of your grant; more details can be found within the Terms and Conditions.

- Researchfish – if you are notified by Cancer Research UK that your award requires an annual submission through Researchfish this will be a mandatory reporting requirement of your grant. We require a submission annually throughout the award and for 3 years after its termination to collect research outputs. Any exceptions must be approved by Cancer Research UK.
- Financial Reconciliation - will be required from your Host Institution at three year intervals (if applicable) and at the end of the award.

You will receive emails reminding you to submit these reports at the appropriate times.

Please contact Elizabeth Smethurst (details below) if you have any issues regarding the administration of your grant.

I wish you every success with this Project Award.

Yours sincerely

Dr Ian Walker PhD MBA
Director of Clinical, Population and Early Detection Research
