**Title:** Propofol use in ERCP and EUS

**Author:** Danny G.Cheriyam, Michael F. Byrne

**Name of Journal:** *World Journal of Gastroenterology*

**ESPS Manuscript NO:** 7783

The manuscript has been improved according to the suggestions of reviewers:

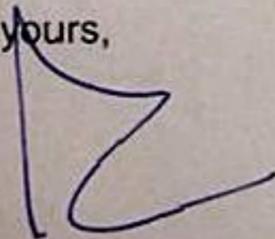

Revision has been made according to the suggestions of the reviewer

- 1: balanced propofol vs monosedation discussed
- 2: propofol administration discussed
- 3: targeted infusion vs. patient controlled sedation discussed

With respect, we felt that another table and discussion of EEG monitoring during propofol would not add extra value to the paper. The above changes have been highlighted within the text as requested. Many thanks for your review and consideration.

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Dr. Danny G. Cheriyam
