To Whom It May Concern:

I am writing to inform you that manuscript number 78500 titled, "Endocrine Disrupter Chemicals as Obesogen and Diabetogen: Clinical and Mechanistic Evidence", which was written by Niyazi Emre Kurşunoğlu, and Banu Pinar Sarer Yurekli, was in fact edited by me, a native English speaker and English as a Foreign Language teacher at Ege University here in Izmir, Turkey.

While I am not responsible for the content of this paper in its entirety, I did perform an edit check of the paper and corrected numerous grammatical errors.

Should you need any further information please feel free to contact me by any of the means listed below.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric L. Peters", with a stylized flourish at the end.
